

## Announcing – CHEST Workshop for Kentucky HIIN Hospitals!

The K-HIIN Team is excited to announce that we will be sponsoring a CHEST Workshop hosted by Clark Regional Medical Center in Winchester, May 22-24!

(CHEST is “Certified Healthcare Environmental Services Technician”)

The CHEST Train the Trainer Workshop is for trainers of healthcare environmental services frontline technicians. This program utilizes a comprehensive nationwide job analysis of a Healthcare EVS technician’s responsibilities and covers all aspects of a frontline worker’s typical tasks and accountabilities.

The Workshop takes place over 3 days, and covers 10 modules:

- Infection Prevention
- Assignments with Supervisor and Other Staff
- Cart Set-Up and Handling Chemicals
- Occupied Patient Room #1
- Unoccupied Terminal Room
- Isolation Room
- Occupied Patient Room #2
- Common Areas
- Specialty Areas, Uncommon Situations
- Wrap-Up, Review, CHEST Exam

Class size is limited to 30 attendees. K-HIIN will cover the registration and materials for this course. Hospitals sending attendees will be responsible for any travel, lodging, and any other expenses. Clark Regional and Bourbon Community hospitals are graciously providing meals during the workshop hours, and have an arrangement for discounted hotel rooms with the local Hampton Inn (details will be provided at a later date). **Registration will be first-come, first-served, with no more than one registrant per K-HIIN hospital.**

To be considered for this course, please send your attendee’s name, title, and email address to Donna Meador at [dmeador@kyha.com](mailto:dmeador@kyha.com), or fax to 502-814-0375, **by April 11<sup>th</sup>**.

Clark Regional Medical Center is located conveniently off I-64, at 175 Hospital Drive, Winchester, KY 40391.
